

Reacties eerste studenten kookschool – Nairobi- Kenia

Sinds Januari 2012 is de kookschool geopend en hebben we 11 leerlingen. Hieronder treft u een aantal berichten van hen waarin ze vertellen over hun ervaringen als student:

Greetings from Kenya. The purpose of this letter is to pass a vote of thanks for your support in building the Catering Practical Class.

Thanks for the equipments you installed in the class examples Oven, Fire Blankets just to mention but a few, which for sure are helping us so much in moulding our future to be good chefs after the course.

I really appreciate and also promise to take care of the equipments as much as I can in order to benefit the students who will come after us.

Prisca

Greetings to you all. I would like to thank you for what you have done for us as students of Apostles of Jesus. Like cold room we have never seen before. May God bless you all for the work that you did for us.

I would like to appreciate you as we are the first class of catering here in Apostles of Jesus. The thing which you made for us we are thankful. May angels watch over you wherever you are and have a long life.

Felistas Moraa

Greetings, I recognize your good work of building us a good learning institution. Actually we are doing our level best to be Chefs and Waiters in our life to come. We will not let you down. I hope when you come to visit us you will see steps made. We take care of our special learning equipments and surroundings too.

I say thanks and may the Lord bless you abundantly. Long live our lovely founders

Mary

Greetings from Kenya. I am a student of catering here at Apostles of Jesus School .I would like to appreciate the good job you have done for us students. Really you took time to come to Kenya and start up a school for us to make our future.

I thank you for the facilities you brought for us. For me, it was my first time to see and use some equipments like cold room, oven, blender and many others. With that I have made a step forward and I assure you that I will have a bright future. I pray that the Lord protects and bless you.

I hope to meet you one day. Thanks a lot, Have a happy and wonderful Easter.

Faith

Greetings from Kenya, HI! I am Kennedy Odhiambo a student from Apostles of Jesus Catering School. I want to say thank you for the work you've done of building the practical class well equipped with machines like ovens, cold rooms and power supply and even materials. All that activates me for a good future. Thank you again for your last visit during December 2011 to do work in the school. I'm happy with lots of thanks. I am ready to learn to get a better job in the future. Thanks you must God bless you.

Kennedy Odhiambo

Greetings. I would like to take this chance to appreciate your good will towards my country and catering class of Apostles of Jesus. Through your tireless effort you've made my first practical class very high class. Most of the equipment are so unique that for the first time in my academic life I have been able to touch, wash, use and store like gas cooker. May the Almighty Father shower your toils with blessing and favour.

Oliver- Student

Much greetings from me. I am very grateful for what you have done for us students of Apostles Catering School. You have found one of the most effective means for helping us to achieve success in our life. I feel honoured because of the equipment you have provided for the school. Most are modern, I had never seen before like the electric blender which allows for speed when mixing than when one uses his/her hands. I am delighted for the rest of the good stuff you have introduced in the kitchen. Now, I have a clear cut idea of the direction to take towards great satisfaction in catering.

Stephen

I would like to send a vote of thanks and appreciation to all that you have done for the catering school. Actually as catering students we find it easy while learning in such a practical class, in that it contains all the learning facilities that have made us have a vision in our catering course we are taking because it is interesting and enjoyable due to the fact that we are not lacking learning materials and equipment.

We really appreciate that and to me I have a dream that one day after I complete my course and achieve what I want to be in future, I pray that I find myself in Holland having my own restaurant as the chief chef.
